Art Unit: 3673

This application is in condition for allowance except for the following formal matters:

***Claim Objections***

Claim 1 is objected to because of the following informalities: It is unclear what is meant by the Applicant's recitation "wherein said plurality of spaced apart bolsters **is** positioned on said expanse of material so as **to generally parallel** at least lateral and foot peripheries of said mattress". Appropriate correction is required.

Claim 24 is objected to because of the following informalities: The Applicant recites "connectig" in the claim. Appropriate correction is required.

***Allowable Subject Matter***

Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach nor does any combination thereof fairly suggest a mattress cover having a plurality of spaced apart bolsters extending upwardly from a top surface of the cover including at least two individual bolsters sufficiently spaced apart along a lateral periphery of the mattress to there-between leave a gap to aid ingress and egress of a person. The combination of elements as set forth in the claims is not shown by the prior art, and in particular the features as set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
